

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:13

For some reason, unknown to the writer, Billy G. Clark, one of Alberts boys, now in Albuquerque, N. Mexico, wants the GCW and is getting a dollars' worth of it, not that we like anything less than a year's subscription. We have another subscriber in that town: Mrs. Paulant, on East Roma Street. Who she is I just don't know, but suspect she is some Grenada County gal who married and changed her name. I wish she would write and tell us who she is.

Libert wants me to go along with him and wife this fall to see Billy. He don't want me to Redistrict the county while he is away, so he will take me along.

Wallace Sherwood is writing some good pieces about Grenada churches.

Weather Note: Sunday, June 21 was the beginning of summer, statisticians say. Most of us folks, less scientific, thought summer had been going on a good while.

It won't be long now before Eisenhower will have most of the veterans on his neck.

Personally I think Ike is eternally right in insisting that the budget becomes in balance before any taxes are cut.

I think Stevenson should be closely guarded. The country is going to need him when another President is named.

The Mississippi Power & Light Co. is to be congratulated on putting out in concise form - an industrial survey of Grenada.

I hardly ever see my old friend, Shaw. Sr., these days and I wonder how he is getting on over in Edouville City.

Everyone else has expressed an opinion about the Rosenberg. It is my time to do so. It appears to me that they had every available legal opportunity to overrule the decision, and failed to do so. No nation in the world would have given them a fairer show.

High Pockets caught our car three times last week. However, he caught me fair, and I paid off and have no quarrel with him.

Cousin Hortense paid up recently. She is one of my many rich cousins.

Sydney Rhee seems to be the current "problem child" of President Ike. Nobody knows what to do with old man Rhee. However much he worries Ike, he sort of tickles me.

Sunday morning, Radio Wells, who soon to change his name to Ham-burger Wells, carried me out on St. and showed me what soon will be the White Kitchen, a hamburger joint whose chief architect is Charles Chapuis, assistant. It is going to be a jam-up joint with air conditioning and everything.

If Ike had depended on the gdp-Republicans, he would have been sunk long ago.

I'll be glad when Bob Townes gets out and begins fraternizing with folks on Growing Green. I miss Bob's jaunty ways and jaunty air.

Albert Cohen attributes the existence of a local depression on account of the fact that Ed Spruill, the po' mans walking bank, has been out of business for several months, so po' folks don't have anywhere to borrow money any more.

I am about fishing like a normal human is about having a baby. She says she will NEVER have another baby, and I am now saying I am never going fishing again. I have a boat wore out my car, Daves' jeep, the broken one fly rod and wore my under down to about six inches in length, also got sore and sick, and about gone financially - busted and caught in all less than 2 dozen hours, many of them, barely big enough to swim. I have been to White Lake several times, to Black Hawk Lake, to Twin Lake, to Thomas Lake, to Yonkabin and Terrell Lake and to Garden Brake several times, also to Little Wolfe and Caney. I think I will quit fishing as I am thoroughly disgusted.

Andrew and I did "bring out" two bags of fish the other day. We got about a dozen bream but, in going out of White Lake, we overtook, then passed some Tribbles from a truck stuck in the mud. We tried but failed to help them out.

AROUND THE SQUARE (By Mrs. L. E. Stevenson)

God! I'm glad Spring is over. Couldn't stand much more of that Spring weather. Officially Summer began at 11 a. m. Sunday and that hot Spring was over. During the 3:30 movie, a change came over the weather and as the day went on, temperatures continued to drop.

Sunday was also Father's Day. Somewhere the myth has developed that poor fathers are forgotten each day of the year and so a special day was set aside to honor this usually down trodden person.

I can't speak with authority on Fathers in general, but only of Mr. Whitaker. Every day is Father's Day for him. His theme song is "I believe I'll let you get me a glass of water or I believe I will let you clean my glasses", etc.

His every day begins with breakfast served in bed, continues with getting dressed in clothes which Mother has laid out and so on through out the day. Later, when he gets ready to go fishing, Andrew drives him to the lake and paddles him or gets somebody else to paddle his boat. So I think every day is Father's Day.

It's evident that men write the tax laws without consulting us women. Witness the 20 percent "luxury" tax on purses. They are no more luxuries than the pockets in men's trousers.

Cotton Chopping About Complete

Cotton chopping is about complete in this area, as well as in the Delta, according to the officials at the Mississippi Employment Service in Grenada.

Advice from the Delta, reveals that chopping is about complete there. A great deal of the late planted cotton has not as yet come up due to hard type soil and no rain since mid May.

The prevailing wages for a day's chopping is \$3 in this area. The employment service has been maintaining pools for choppers, or rather central meeting places for them where farmers could come by and pick them up at certain times.

There are a lot of surplus choppers this year, as in contrast to former years when there weren't enough choppers.

BIDDY AND SWETLAND TO AMERICAN LEGION MEET

Harold Biddy and Raymond Swetland will represent Grenada at the annual Dept. of Miss. American Legion Convention July 5-8 at the Beuna Vista Hotel in Biloxi.

The National Commander, Lewis K. Gough, of Pasadena, Calif. will be the opening day speaker.

JOHN KEETON ON STAFF OF LAW JOURNAL

John T. Keeton of Grenada was recently elected a member of the writing staff of the Mississippi Law Review, official publication of the Miss. State Bar Association. It is staffed by students in the University Law School. Mr. Keeton is a second year law student.

"CAP" JONES HAS FIRST COTTON BLOSSOM

"Cap" Jones, janitor at the Court House, gets the honor this year for being the first cotton blossom.

"Cap" planted his cotton in the Court House yard on April 3. These sturdy plants survived two freezing spells in mid-April.

E. L. Boteler, Sr. gave "Cap" the seeds. The first blossom appeared Sunday, June 21, the first day of Summer. He has 15 plants.

Of it. They had a bunch of crapple which was about to spoil, so we took them to amuse our friends and make them covetous.

But, like the woman who said she would not have ANOTHER baby, I will probably be trying again before this is printed. I did THAT afternoon.

I have heard a lot of complaint about the hot weather, but have seen nothing that anyone did about it. The more one complains, the hotter one gets. This hot weather is no NEW manifestation of divine power. It has been hot in the summer ever since I can remember. Just take it easy and be philosophical about this weather. If you have enough energy, get on an airplane and fly to Argentina where they are having early frosts, or to one of the poles where it is always cold.

Principles Of Bell System Radio Relay Transmission Shown Here

How telephone calls and television programs speed through space along the Bell Telephone Systems Radio-Relay route was demonstrated to the Rotary and Kiwanis Clubs here this week by P. J. Lundy, supervisor of the Southern Bell Telephone Co. Miniature Radio-Relay apparatus, representing the equipment used to connect Atlanta and Charlotte, N. C., to the coast to coast chain of towers at Washington, D. C. was used by Mr. Lundy to explain the principles of the new development in the field of communications.

The Southern Bell representative explained that hundreds of telephone calls and television programs can now be transmitted simultaneously without the use of wire or cable by means of high-frequency radio beams called microwaves. This new skyway

communications route permits static free transmission from towers which are about 30 miles apart and range up to 290 feet in height. The microwaves travel at the rate of four billion past a given point each second before they are placed on regular wire circuits and carried to telephone sets or receivers in the home.

Mr. Lundy described Radio-Relay as one of many new advances that have resulted from research done at the Bell Telephone Laboratories in the past years. He used his model equipment to show how metal lenses focus the radio beam from horizon to horizon along the chain of towers. These lenses are so effective that only five watts of power - the amount in a normal flash light - is needed to relay the signals along their way.

A question and answer period followed the demonstration.

Hill Implement Company Begins Business

C. V. Hill and his brother, J. P. Hill, have purchased Perry-Alison Implement Co. and incorporated their business under the name of Hill Implement Co., Inc.

C. V. Hill is president of the company and J. P. Hill is vice president. Hill Implement Co. has the dealership for John Deere implements, for New Holland balers and for Purina feeds. In addition they have a

full size parts department and good mechanics who can service and repair the implements and balers.

The employees are: shop foreman, Lewis Freely; parts man, Roland Thomas; mechanics, Bill Boland and James Hodges; salesman, R. C. Griffin; Purina salesman, Mack McCord.

See their advertisement inside the paper.

The following is a list of the new book at Grenada County Library: Coins of The World, Amazing Mr. Doolittle, Cotillion, Brotherhood of Fear, Captain Adam, Theodora & Emperor, Rogue's Yarn, New Heaven New Earth, Behind Crimson Blind, We All Killed Grandma, Case of Hesitant Hostess, Where Main Street Meets the River, Riches of the Earth, Mr. Ump, Program for Christine, Vagabond Summer, Sink That Basket, Indian Fur.

REV. PEARSON CALLED TO NEW ALBANY

Rev. W. L. Pearson, former Methodist minister in Grenada, was called to the New Albany Church at the recent North Mississippi Conference. Rev. Pearson was pastor at Chicksdale the past two years.

IT WAS TOO HOT TO BE HOSPITALITY

Due to the extreme heat, the Hospitality Booth was closed Thursday through Saturday of last week. Members of the Iris Club were in charge of the booth.

It was closed this week also.

C. M. CRUMBY HEADS LEGION POST 35

C. M. Crumby, chief of police of Grenada, will be installed as commander of American Legion Post 35 the night of July 9 in the Legion Hut.

Other recently elected officers who will be installed on the same occasion are: 1st vice commander, Archie Hoffman; 2nd vice comdr., Byron Hunter; re-elected adjutant, Tommy Ruse, Jr.; service officer, Marshall Perry; re-elected historian, William Wright; chaplain, Rev. C. M. Roby; Assistant chaplain, Eugene Turnipseed; and sergeant-at-arms, E. L. Harlow.

SUMMER SCHOOL TO END FRIDAY

Summer School at Grenada High will close after being in session five weeks.

J. G. Hathorn, superintendent of City Schools, is now completing his list of teachers for the coming year.

ABSENTEE BALLOTS FOR INDUSTRIES BOND ISSUE

1,408 Qualified To Vote, After Books Are "Purged"

"Purging" the books, the election commissioners found that 1,408 of Grenada are eligible to vote in the bond election on Saturday, July 11.

In this election, a majority of those qualified to vote must cast their ballots that day. And of those who vote, 3-5 must favor the bond issue. The proposition is whether \$60,000 in bonds should be issued by the City of Grenada to provide funds for acquiring land for expansion, enlarging and constructing additions to the present factory building housing Grenada Industries, Inc.

A big vote is necessary and every one should make an effort to be at their voting place Saturday. Those voters who plan to be out of town on Saturday may get absentee ballots at the City Hall now.

Voting will be by wards: Ward 1, Court House; Ward 2, City Hall; Ward 3 and 4, Health Department and Youth Center.

Grenada Industries expect to hire an additional 75 or 100 workers as a result of the proposed expansion.

Shoe Shine Boy Arrested For Theft Of Watch

Willie Brown, Jr., 23 year old shoe shine boy, was arrested about 11:30 p. m. Friday by three City policemen and charged with burglarizing the home of David Young Dubard on Main Street. Chief of Police Crumby said Tuesday.

He pled guilty in Judge W. O. Semmes' City Court Saturday to entering the Dubard home and taking a ladies gold wrist watch belonging to Mrs. Juel Batson.

When the Negro entered the house, Diane Dubard, young daughter of Mr. and Mrs. Dubard, heard the Negro and screamed. The police were called and Officers McCluskey, Vaughn and Starnes began a search for the Negro. He was picked up and searched. In his pocket was the watch.

Judge Semmes put him under a \$500 bond and he was bound over to the action of the Grand Jury, which convenes during the July session of Circuit Court. As yet he has not put up the bond and is in the Grenada County Jail.

TEXAS COMPANY BUYS TOWNES' PLANTATIONS

Herefords To Be Raised On 6,000 Acre Tract

The Dunbar Land Company of San Antonio, Texas, are completing negotiations to purchase the almost 6,000 acre tract of land comprising Mr. Lore and Troy Plantations, owned by Mrs. Ben Townes and Bob Townes.

This tract of land, lying in Beat 4 on the road to Casella is one of the finest, if not the finest in Grenada County. The late Ben Townes put all the land under long lasting creosote fencing and had many trees cut down in order to make the place ideal for grazing.

The Dunbar Company will raise Hereford cattle on the land. Representatives of the company were here the past weekend.

Mrs. Townes has Hereford on her land while Mr. Townes is raising cotton on his.

The Texas people will take over the land on November 1.

MAIL COLLECTION SERVICE IS IMPROVED

Improved mail collection service has just been provided according to Postmaster Donald Sharp.

Patrons are advised that all city collection boxes have been provided with new inscribed time cards indicating the time of each collection of mail during the day.

The latest schedule for collection of mail from these boxes to assure dispatch without delay will be noted by patrons and it will be appreciated if patrons, especially in all business areas, become familiar with the new collection time for mail which may benefit them and prevent unnecessary trips to the post office.

Collection time changes, in the future, will be made as required. This new improved service is for the benefit of patrons and the postmaster requests that patrons use the convenience provided by the city collection box service, when it is not practicable for them to deposit mail at the post office.

Week Of Sermons At Bethel Church, Pea Ridge

Rev. Lander Chikens, associate minister of Idlewild Presbyterian Church, Memphis, will preach at Bethel Church, Pea Ridge, all of next week, beginning Monday evening, June 29 at 7:30 and continuing through Friday evening, July 3. All services to begin at 7:30 p. m.

Rev. Chikens was reared in the Pea Ridge neighborhood and attended Bethel Church as a child and young man. He has many friends and relatives in Grenada and in that section of the county and all are cordially invited to attend the services.

Singing At Pleasant Grove Baptist Church

There will be singing from the Broadman Hymnal, again at Pleasant Grove Baptist Church, 12 miles east of Grenada on New Highway 4, Sunday afternoon, June 28 at 3 o'clock. The public is cordially invited to attend and participate in this service.

17 Days Of 97. And Over Temperatures Here

So far Summer has been cooler than Spring is the deduction you reach after reading the maximum temperatures for the past week as recorded by Hiram West, official government weather recorder.

Through Tuesday, there had been 12 consecutive days with 90 or more degree temperatures, and 13 consecutive days with 97 or over.

The maximum temperatures for the past week were: Wednesday, June 17, 100; Thursday, 101; Friday, 101; Saturday, 101; Sunday, 102; Monday, 98; Tuesday, 99.

No rain of any consequence has fallen since May 18 or 19.

Grenada Vs. Yazoo City Here Sunday

Manager Albert Smith is planning a warm reception for the strong Yazoo City nine next Sunday at 3 p. m. on the local diamond. Grenada with the addition of some new ball players to their roster, which includes Melvin Arnold, Jimmie Caldwell and Sleepy Caldwell (who hit a 340 ft. home run in last Sunday's game) will be out to give Yazoo City a rough afternoon.

In two previous tilts this season the Indians were victorious in the first on home soil by the score of 7 to 5, while several of the regulars were out with injuries. Yazoo City took Grenada 6 to 0 in Yazoo City.

Grenada will play Greenwood to night, Friday, June 26th there.

From the way some folks talk and act, this is the FIRST hot weather they ever experienced.

You are hereby notified that a complaint in condemnation has been filed heretofore in the office of the clerk of the above-named court in an action to condemn the perpetual right, power, privilege, and easement to construct, operate, and maintain channel improvement works or other pertinent flood control structures on over and across the lands described in Exhibit A attached hereto and made a part hereof for public use in connection with the construction, operation, and maintenance of the Yalobusha River Channel Improvement, Yazoo Headwater Project, Mississippi.

The authority for the taking is under and in accordance with the Act of Congress approved February 26, 1931 (46 Stat. 1421, 40 U.S.C. sec. 258a) which act authorized the filing of Declarations of Taking, and acts supplementary thereto and amendatory thereof; and under the further authority of Act of Congress approved April 24, 1888 (25 Stat. 94, 33 U.S.C. 591) and the Act of Congress approved March 1, 1917 (39 Stat. 950, 33 U.S.C. 701) which acts authorize the acquisition of land for River and Harbor and Flood Control Projects; the Act of Congress approved May 15, 1928 (45 Stat. 536, 33 U.S.C. 702a-1 et seq.) as amended by Act of June 15, 1936 (49 Stat. 1508, 33 U.S.C. 702a-1 et seq.) and acts supplementary thereto and amendatory thereof, which acts authorize the construction of the Yalobusha River Channel Improvement, Yazoo Headwater Project in Mississippi; and the Act known as the "Civil Functions Appropriation Act, 1962", approved 24 October 1961 (Public Law 203 - 82d Congress - 1st Session), which act appropriated funds for such purposes.

You are further notified that if you have any objection or defense to the taking of your property, you are required to serve upon plaintiff's

attorney at the address herein designated within twenty days after July 2, 1963, an answer identifying the property in which you claim to have an interest, stating the nature and extent of the interest claimed and stating all your objections and defenses to the taking of your property. A failure to serve an answer shall constitute a consent to the taking and to the authority of the court to proceed to hear the action and to fix the just compensation and shall constitute a waiver of all defenses and objections not so presented.

You are further notified that if you have no objection or defense to the taking, you may serve upon plaintiff's attorney a notice of appearance designating the property in which you claim to be interested, and thereafter you shall receive notice of all proceedings affecting the said property.

You are further notified that at the trial of the issue of just compensation, whether or not you have answered or served notice of appearance, you may present evidence as to the amount of the compensation to be paid for the property in which you have any interest and you may share in the distribution of the award of compensation.

IT TAKES LOTS OF NEW CABLE TO KEEP EXPANDING MISSISSIPPI'S TELEPHONE SERVICE

Your telephone company is moving right along with the greatest program of expansion and improvement of its long history in the State... keeping pace with Mississippi's need for more telephones.

Like you, we must pay today's higher prices for everything—such as the record breaking quantities of cable, poles, and other material, called for by a program which already has more than doubled the number of Mississippi telephones since 1945.

Those additional telephones make everyone's telephone more valuable... Service is better, too. And the price you pay for it has risen far less than other things you buy... So, measure it as you will, your telephone is one of today's best values.

Who Can Be Glad?

Lesson for June 28, 1953

EVERYBODY with a grain of sense wants to be happy. Most sensible people also know the kind of happiness they want, though some of them have not yet found the way to get it. What we really want is a happiness that will not melt in the rains of "misfortune," will not slip from our grasp in the nights of sorrow, will not be blown away by the winds of disappointment. What we want, in short, is happiness that will last. Furthermore, if we are grown persons and not children, we want a happiness that goes much deeper than the surface. We don't want one that is tied to things. We want a happiness that reaches the inside of our lives and is not a mere glamorous finish on the outside.

Dr. Foreman

Handicaps Of Happiness

That very practical friend of God and man, Saint Paul, is a solid example of how true happiness can prevail over the most disheartening handicaps. Many a man in his situation would say to himself: Happiness is just not possible for me. If things were only different, I could be happy. But consider the handicaps of Paul's happiness. He was a Jew in the Roman Empire, and a Christian among Jews—a member of a minority group either way you take it. He was in a situation where his future was most uncertain. If Paul had waited for "security" he never would have known happiness to his dying day. He was never a well man; at the time of the Philippian letter he was a prisoner. Freedom, health, security, power—he lacked all these. But he did not lack happiness. If Paul could find happiness, so can any one.

The Christian Secret

If happiness is a secret, it is an open one. You do not have to join some mysterious order, there are no dues, you do not have to make some tremendous pilgrimage to learn the secret of true happiness. It is a secret known to Christians, and the Christian brotherhood is no closed fraternity, its doors are wide open as the gate of heaven. Paul put the main point into three Greek words which in English mean: "To live is Christ." What he meant his life showed plainly.

For one thing, he looked out at the world through the eyes of Christ. Nothing could quite discourage him, take the heart out of him; for he was as sure as Christ is sure that this is God's world and "He is the ruler yet." His hands were Christ's hands, his work was Christ's work. One of Jesus' last words was "that my joy may be in you." Paul knew what that meant. Furthermore, Paul's whole self was devoted to Christ. He knew that his life, uncertain as it was to himself, was not uncertain to God. He knew himself to be gripped by the power of the Son of God. He knew he was a son of destiny—not his own destiny alone but Christ's. So he could face the future as our Christian poet Whit-tier faced it.

Why Aren't All Christians Happy?

A prize-winning photograph was taken by a news photographer in Louisville, Kentucky, a year or two ago. All he did was to take an unposed picture of a street corner where perhaps 25 persons were waiting for the light to change. Not a happy face in the lot. Is it possible that not one in that group was a Christian? On the contrary, it is most likely that a majority of those unhappy faces belonged to church members. It looks as if we were wrong in saying that happiness is a Christian secret.

No, the truth is that plenty of Christians have not yet discovered it. Many Christians are like people who have inherited great wealth and do not know it, or do not dare to believe it. They say, in church, they believe in "God the Father Almighty;" but weekdays they show that they either don't believe He is almighty, or don't believe He is truly their Father. They sing, on Sundays, "I'm the child of a King," or "How firm a foundation,"—but on weekdays they act as if they were orphans in the universe, they are as wobbly as if they had no foundation at all. They sing, maybe, "Standing on the Promises," but if you asked them point-blank, "What promises of God are you standing on?" they would not have the least idea, because they didn't mean what they sang.

C. OF C. THANKS THOSE WHO HELP WITH HOSPITALITY

The Chamber of Commerce is expressing through the press their gratitude to numerous individuals who have aided in making the Hospitality Booth a success.

Thanks are due: Monroe Looney for the use of his tarpaulin over the booth; to Grenada Industries for gifts of hosiery for the tourists; to Dennis Bakery for cookies; to H. L. Honeycutt for the use of his lot and a case of Cokes daily; to John Brewer and T. M. Ellard and the City Police for the many hours they put in each day on the Hospitality program.

Also the ladies that gave their time to keep the booth open are to be especially thanked. Sam Ferguson, police traffic officer, is also, due thanks for placing

cards in out of town cars which welcomed tourists to Grenada. These cards were designed by the Chamber of Commerce.

Grenadians are reminded now to circle June 25 on their calendar and

be at the Grenada Theatre at 8 p. m. on that date because Miss Hospitality will be presented. In addition a style show will be presented in which clothes will be modeled which Miss Hospitality will wear to the

state contest. A secret committee will pick the girl.

Added to those who wrote "why-they-didn't you come to see ME?"

while near Washington. Robert Gre sham.

Who remembers when Col. Will Hoffa tried to GIVE a fine lot for a school in growing South Grenada.

There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

The Honeymoon Is Over

Indications everywhere are to be seen and felt that the 20-years honeymoon of the New Deal and the Fair Deal forms of government is about over.

Every sensible person realized that an end of the honeymoon was inevitable, just as death is inevitable, but everyone wanted to postpone the end of the honeymoon, just as he wants to postpone the coming of death.

It would be just as unfair to blame Eisenhower for the end of this honeymoon as it was unfair to blame Hoover on the end of the honeymoon following the end of World War I. The country just had it "coming to it." Nothing can go "up" forever. There is bound to be a return to earth, just as an aquiline or a bird has to come back to earth sometimes.

We have been on a long, apparent pleasant ride. Most of this long, pleasant ride was paid for on borrowed money, money borrowed by states, nations and individuals. "Pay Day," a gloomy period, is about here. Everyone knew pay day was coming.

Individuals, who voted for Eisenhower, are now cursing him. As a matter of fact, President Eisenhower seems to be trying to do the things he promised the American people to do. He promised economy in government. He is TRYING to bring economy to government, yet is being cursed for economy. The majority of folks voted for him because he promised to seek to balance the budget. But it seems that every man wanted the budget balanced on the OTHER fellow, and economy to be practiced on the OTHER fellow.

Thousands of folks voted for him because (they thought) he was going to settle the Korean mess. However, signally, he has failed to end the mess in Korea, he seems to have TRIED to end it.

As of today, one can hear from all kinds of people, little ones and big ones, just about the same kind of stories of HIS reactions that one heard before the beginning of the so-called Hoover depression. One sees individuals seeking to borrow money for down-payments on things that they don't actually need. Borrowing to make down-payments is hazardous business. I don't care what you want to buy.

Fear is in the hearts of common folks. They fear that we are "in for" another severe drought like that of last year. They fear because grass is drying up. They fear because water holes are drying up. They fear the invasion of the boll weevils. They fear what the burning sun will do to corn. They fear above other things the coming of the "collector."

A good "season" rain would cause the collapse of most of these fears.

Bond Issue Election

Scheduled for Grenada is an election, to be participated in by the qualified electors of Grenada to determine whether the City of Grenada will issue \$50,000 worth of bonds, the proceeds of which will be used to increase the floor space of the building now leased to Grenada Industries, Inc. More floor space will, of course mean, more space for more people to work in this, Grenada's premier industry.

If readers want to know what I think here it is. Grenada needs more employment for its young people. Grenada Industries has a fine record in Grenada, thru its adherence to its contracts and to its "word." It is far better, it seems to me, to foster an institution which has proven to be good than to run off and seek to get some "new" enterprise that does not have such a fine record in Grenada.

Then, too, so far these bonds, whose "servicing" is taken care of by Grenada Industries, in the form of rental, have not cost the general taxpayers of Grenada a penny, nor is it to be expected that the contemplated bonds will cost the taxpayers of Grenada anything. Grenada itself, is, therefore, only lending its credit.

—MY HOME TOWN—
(By Mrs. Minnie L. Spruill)

On a clear cool day of Dec. 15, 1908 at about 11:30 p. m. a train slowly pulled up opposite the platform in Grenada, Miss. and stopped with a bang and clanging of wheels.

Timber Conservation, Or Not

The western, or delta part of Grenada County was until about 1920 covered with fine virgin timber. Then three sawmill companies came in and began cutting the timber. There were three principal operators: May Brothers, Gayoso Lumber Co. and Dulwebber. By and large, May Brothers cut the timber in the northern section of the immense area. Gayoso operated primarily in the central part while Dulwebber operated closer to the river in the southern part.

As I remember it, May Brothers cut "close"; Gayoso left a few trees and so did Dulwebber.

During the Hoover depression, practically all of this cut-over land went back to the State of Mississippi on account of non-payment of taxes.

Jim Keeton of Grenada eventually secured title to several sections of land in the northern part of cutover section and held it several more years until about two years ago he sold the timber, with little reservations, to a sawmill in Bruce. Fire which swept large parts of the county last year, got into the western part of the county, including the Keeton holdings, last fall. Today, as anyone can see, that part of the county looks as if the Battle of the Bulge was fought there. Acres of ground, left clean by the fire last fall, is still clean. Gaunt skeletons of young trees give visual evidence of the effect on timber of raging forest fires. Apparently nothing was done; maybe could not have been done; to check the forest fire there. As a matter of fact nobody there had much incentive to stop the fire.

Homier Williams got title to several sections of land, formerly owned by Gayoso. This land, as stated above, was not cut as "close" as the land May Brothers had. More trees remained standing to grow. Williams, who has been somewhat of a crank about conservation, made a deal with Chapman - Dewey Lumber Co. which undertook to "harvest" the timber on the Williams tract. There was strong personal incentive for Williams and the company to keep fire out of that tract as each of the parties had an equity in the growing timber. The same fire that devastated the Keeton tract, got into the Williams tract. By a tremendous amount of sweat and work, the fire in the Williams tract was kept within very reasonable bounds.

Jim Keeton owned his land and so did Williams own his part. Under the law, any man can do whatever he pleases with his own land, just so he does nothing seriously to affect his neighbor. Jim Keeton elected to sell his timber outright; Williams elected to sell his timber, as it reached maturity.

In one area there are waste, gaunt black skeletons, stumps and ashy land; in another there are grass, saplings and timber growing toward maturity.

Anyone who cares to do so can drive down and see what I am talking about.

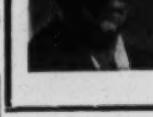

An old man with white hair and beard stood waiting for the arrival of his youngest daughter, with her four small children, that were coming to spend Christmas in his home, ten miles out in the country. The children rushed to the train door as it came to a standstill. They were tired and impatient to be on their way of the last lap of their journey to dear old grandmother's home, as they stepped from the train they were each clasped in feeble old arms of grandpa who was anxiously awaiting their arrival. As we walked to the little old depot behind the old Negro driver and our granddad. The little old house that was the depot was not of much interest to them, but nevertheless it is a symbol in my memory of a happy period. The depot, built of plain wood roughly put together to form a rough structure of building about 14 x 16 in size, this was my first view of Grenada.

We followed close behind grandpa as we walked up town on plank walks, over deep gulches where water flowed freely. A strip of timber was nailed to stakes along these walks as a protection from falling off them. There were no electric lighting as I remember, but lamps or large white globes were set on posts at regular intervals along the streets. The streets were not paved and no concrete sidewalks. Often these were very muddy and sloppy, or deep with dust. There was no water system, but in the public square a large old well stood with two oak-buckets attached to each end of a chain and ran through a huge wheel, perhaps called a pulley, by which water was drawn from the well. A public drinking cup for all to drink the clear cool water that came from the old well. Of course, we all drank from it.

All around the public square were hitching rails, for people to hitch their teams, and feed and water them. For the purpose of watering the teams of mules or horses, was a long trough on one side of the square, kept filled by an iron pipe from

Through A Woman's Eye

(By Mrs. W. W. W.)

Burning up forests and grass is not funny, and no way you look at it, should it be tolerated.

Take, for instance, the 16,000 acres already burned in Grenada County in 1962-63 and since last July 1. And with the official dry season again here, with America looking to the commercial woodlands for timber and timber products so essential to modern living, it behooves us all to crush out cigarettes, break our matches and put out camp fires.

One of the greatest losses caused by fire is the loss of young trees. Fire destroys them. These small trees are soil holders, kill them and erosion begins and soon the land washes away. All of this loss because of some careless person who failed to put out that fire.

Along the highways where grass has dried in the heat of summer, motorists toss out cigarettes, a fire is started, fields and woodlands along with fence posts are burned, all because someone didn't think to use their ash tray, and simply tossed away a lit cigarette.

While on a long motor trip recently through Alabama, Georgia, S. C. and N. Carolina and Virginia, we read signs warning motorists, to "Use Your Ash Tray"; "Break Your Match"; "Crush Your Cigarette"; "Save Our Trees"; "Save Our Pastures".

Young people are urged to build camp fires in an open area, away from brush and trees, and when ready to leave camp, to be sure every spark is out. Water and moist earth will extinguish a camp fire.

There are tree farms in Grenada County. Young men have purchased hill side land, stocked it with pine seedlings, and hope to sell timber within 20 years, but if careless citizens, toss matches or cigarettes about, burn off the land, all the industrious citizen will have for his investment will be an eroded hill side, worthless to him and his country.

Keep Mississippi and Grenada Co. Green! So keep America Green!

Use your ash trays, douse your camp fires; Report all Fires; Obey the fire laws.

Gerald Stevens, area forester, states that the 2 fires already this season, and during the past weekend, one on the old Dogan place and one on No. 8 near Putneyville, both were due to cigarettes thrown from cars. So Please Be Careful with Fire!

It will be cool this fall sometime. In the meantime, quit talking and complaining about "how hot it is."

Andrew and I gave Tommie Darras two strings of fine fish one night last week. The remarkable thing is this: we got our stringers back thru Tommie's wife, Melba, not thru Tommie who, Dave says, has a collection of stringers, like we used to collect marbles and tops and tobacco bags.

the well.

As we sat in the park we ate a lunch consisting of cheese, bologna and crackers. We looked out over the town as it then stood. I remember the Grenada Bank, a row of drygood stores and some of general merchandise, the Court House, and school house. There was no theatres or any place of public amusement.

To compare the City of Grenada on my first visit to it, for the year of 1896 to this year of 1963, is almost unbelievable from my point of view.

As I sit on my porch I look over the many modern homes, paved and well electrically lighted streets and watch people stroll aimlessly along smooth concrete sidewalks. I remember my first view of my home town: Automobiles, trucks, buses, and other forms of modern transportation have taken the place of the mule-drawn vehicles. Today children will rush out to see a horse or mule with as much enthusiasm as they used to when the circus came to town and paraded the streets with their various animals. As we go for a walk on Grenada's nice clean streets, we see churches beautifully constructed of most every denomination, large modern school buildings adorning the school grounds with wide concrete walks and beautiful flowers extend to the streets.

The many industries, wholesale houses, modern store buildings, clinics, hospital, modern post office, funeral homes, that now make up my home town. How interesting it is to picture the years gone by and place the picture beside the year of 1963.

Modern time has brought about this change which modern people require and must have. As we go into a scientific age we wonder what will be next. We feel as the age of modern age slowly slips into oblivion, the effects of a scientific era which is coming and has made its appearance already in many ways.

In memory of my home town, by Mrs. Minnie L. Spruill, 5 N. Church St., Grenada, Miss.

SPORTSMAN COLUMN

(By C. C. Hamby, Sr.)

This has been the worst spring and summer fishing year that I can remember. The bass and crappie fishermen are having no luck at all. My theory is that the water condition is not right and has not been right. The water has a rusty, dingy look, not uddy at all, but not clear, and I am sure that if we could get a nice good general rain, all these conditions would be eliminated. If you are a bass or crappie fisherman and want to catch these fish, you will have to go over in the swamp around Horse Shoe Lake, Beulah, Mossey, Washington and the hottest lake of them all right now, from all reports, is Lake Lee. I understand the bass and crappie are being caught by the trolling way, as well as with minnows. Bass are striking artificial lures.

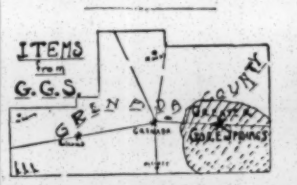

The blue gill bream fishermen are having the time of their lives as the blue gill are being caught on all lakes and streams, using roaches, crickets and red worms. They absolutely refuse to take any kind of artificial bugs, etc.

Catfish are being caught on rivers, and reservoirs and blow hole. Trot line, set hooks and jug fishing, using large gold fish. This is fun, try it out and see for yourself.

Fourth of July is right here on us. Plan a trip, outing, fishing, picnicking and get away from this hot, dry, humid weather in the city. If you don't catch fish, you will enjoy the outing, and we will have ample supplies of all kind of bait.

Remember, July 1st you must have your new licenses. Your old ones expires June 30th.

Any information you desire on fishing, outing, etc., I'll be glad to give you and I know. Phone or come by the Shell Service Station.

H. D. Culb picnic plans have been changed to Friday, July 3rd at Mr. Jim Keeton's pond on Highway 8 instead of July 4th in Albert Hayward's pasture. Each family will bring lunch and tea.

Town Talk
BY
ED ROBINSON

The Christophers is an organization that emphasize the importance of the individual. They tell us and save it that there isn't any limit to a good work one person can do in this world. One of their stories is that of a Korean War veteran who gave his life for his country, is responsible for the song hit, "I Believe." This lady sent a letter to the Froman Show, "U. S. A. Can't" in which she remarked she had thing to show for her son's death a piece of paper - a telegram from the War Department. She asked couldn't someone write something that would reaffirm the faith at gives the only real meaning in life. The matter was turned over to the famous songwriters, and they came up with a very popular hit. These words: "I believe for a drop of rain that falls, a flower grows. I believe that somewhere the darkest night, a candle glows. I believe for everyone who goes away, someone will come to show the way. I believe, I believe, I believe above the storm, the smallest prayer will still be heard. I believe that someone in the great somewhere hears every word. Everytime I hear a new born baby cry, or touch a leaf or see the sky. Then I believe I know why, I believe." In 1951, Mrs. Carleton Shaw, San Diego housewife founded an organization called "Thanx" and she led a group of friends sent 2500 letters to men in the armed forces in Korea and enclosed notes asking if there was anything the fellows needed and they were swamped with requests for candy, reading material, news, pictures, or anything at all that the GI's really wanted was to be remembered so Thanx was extended until today literally thousands of people are sending gifts, letters and things the GI wants so much. If any readers of this column want to join this group just write to "Thanx - San Diego, California." Well, its like the Christophers says, everyone has an important part to play in this great scheme of living and every good deed is like a pebble dropped in the water - the little waves go out in circles ever flowing out to the sea, and there's no telling what the result will finally be. Ec-

clesiates 11:1 "Cast thy bread upon the water for thou shalt find it after many days."

Writing about the Christophers who encourage us to believe we have many powers for good if we would only use them, reminded me of a tale I have told to hundreds of new salesmen starting out fearfully and uncertain. We called it "The Fable of the Lion who thought he was a sheep" it goes like this: Once there was a little lion cub who became lost from its mother and wandered into a herd of sheep. One of the mother sheep had just lost her lamb and she immediately adopted the little lion cub as her own. The cub grew and acquired sheep habits and

some of their nature and when the big dog chased the sheep the lion cub ran as fast as any of them as he thought he was a sheep. One day a real lion came up over a hill and stood proudly and roared out the King of the Forest roar which struck terror to the hearts of the sheep, but the little lion was now full grown and for some strange reason he was not afraid. Again the big wild lion roared his natural call and the little lion had a strange feeling of kinship and went boldly toward the king of the forest and joined him. And so the lion who thought he was a sheep found himself with the powers of a jungle king which he had had all the time but didn't know it. The moral of the story is, we all have great powers within us if we would but discover them and assert them. The difference between a mediocre living and a grand living is just a matter of reaching out for a FULL measure of all the good things within our reach. If a man is a good salesman, has the true spirit of service wrapped around his every effort, he may pull up a chair at the banquet table of life and eat well. But if he is unwilling to pay the price of hard work and mid-night study, or if he is selfish and stingy, he will more frequently have to eat the crumbs as they fall away on the lower levels and will never realize that he is a lion grazing the dry stubble with a herd of timid little sheep. We may rightfully give credit for the marvelous standard of living we know today to salesmen who sell the stuff made by the skilled workers of America. If the salesmen fail to sell, the wheels of commerce would turn no more and sixty five million workers would go back to leaning on their shovels and

gain. Praise to the sales forces of our land who create business, by creating desires for our goods and services, an art not easy to learn or always understood, but we miss it if we lost it. —Fed.

MISS McNEILL TO ATTEND NATIONAL RED CROSS MEET

Miss Mary Elizabeth McNeill, director of the Red Cross in Grenada County, will leave Friday for Washington, D. C. where she will attend the National Convention of the American Red Cross as a voting delegate. As a delegate, she is among the few whose expenses are defrayed by the national organization.

On the program for the annual meeting are parades of color guards from every branch of the service, with servicemen clothed in dress uniforms, a religious service in the huge Washington Cathedral and a tea party in the garden of the Cathedral.

About 8,000 Red Cross workers, including volunteers from most of the countries of the world are expected. The meeting will open Sunday and

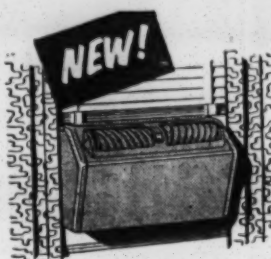

close Wednesday. Delegates will also tour the White House and perhaps be presented to President and Mrs. Eisenhower.

HOME HINTS

It's Good to Get Into Hot Water! That "scrubbed look" is the aim of young teenagers and a very attractive look it is. It is a sensible goal to work for and one that most mothers are glad to encourage. But it does mean that Joan or Betty or Susan monopolizes the bathroom. Their quick showers and warm baths, their shampoos and manicures and pedicures are a drain on the hot water supply. "Our hot water supply has to be able to take it," one mother explained to us. "There is no use having Dad furious because there is no hot water when he wants to shave, and I don't want my housework held up while I wait for water to heat. We put an end to all those annoyances once and for all when we installed an electric water heater. Now we have hot water on tap twenty-four hours a day."

You should consult a water heating expert before deciding on a heater. Tell him the size of your household and whether there are young children in the family. Let him know the number of bathrooms in the house. (Beautiful modern bathrooms don't seem so modern when you have an insufficient supply of hot water.) He will also want to know if the laundry is done at home, and if so, whether your washer is the automatic or nonautomatic type, and also whether you wash dishes by hand or use an electric dishwasher. An automatic electric washer requires from 15 to 20 gallons of hot water for every load of clothes and the dishwasher requires 2 to 6 gallons every time you use it. When he has this information he will tell you the size and style of heater that will fit your needs. He will be able to give you an estimate on the cost of operating the heater. All that he tells you will come true. Electric water heating saves time, work and money.

EASY ON THE HEART-STRING

(By Fred Robinson)

Heard on the party-line: "When a customer comes into store, make it a practice NEVER ask him any questions about the appliance we sold him - if he is having trouble with it he will let you know soon enough."

It would have been easier on heart-strings had he said:

"We want our merchandise to render satisfactory service and at every opportunity we want our salesman to check with our customers to see if there is any kind of advice or service concerning the appliances we have sold them."

A Sign Your Life is in DANGER

You're driving on a dark-surfaced highway. The sky becomes overcast. It begins to rain. Traffic bunches up. You strain to see. "Slippery" warnings keep you tense. Then—suddenly you pass onto light-colored concrete. What a relief! Traffic moves out. No "slippery" signs. You know you're on a safer pavement.

Yes, the difference between a sickening swerve and a safe, quick stop often is the pavement. Concrete grips tires—helps you avoid accidents. Wet or dry, its gritty texture provides uniformly high skid resistance.

Remember, no driver expects trouble but if it comes your chances are much better on concrete pavement.

He's Driving His Cares Away!

There's a great industrialist in Detroit, and a well-known scientist in New York, and a famous statesman in Washington who will tell you that the best way to relax from the cares of the day is to get behind the wheel of a 1953 Cadillac.

And there are also thousands upon thousands of other Cadillac owners throughout America who will gladly add supporting testimony to these revealing statements.

For these motorists know, from their own personal experience, that there is no faster or surer way to relax and refresh than to take to the highway with a smooth, comfortable, quiet Cadillac car.

It makes a man feel good just to sit behind the wheel. As he glances about his Cadillac's gracious

interior, he's reminded that he has made something out of his years—and that, in itself, gives a lift to his spirits.

And then, once he's out on the highway—well, in no time at all, he's as happy and contented and trouble-free as it's possible for a motorist to be.

He is surrounded with comfort—and his driving is so relaxing and effortless and enjoyable that his mind clears, as the miles go by—and his heart grows gay and his outlook bright and hopeful.

He has literally driven his cares away!

You really ought to try it sometime. Come to think of it, you ought to try it today . . . after your day's work is done.

The car is waiting—and so are we.

FALSE HOPES

How often have you read of a remarkable new remedy which is reported to be a cure for a fatal disease? More frequently than not, these reports are unfounded. Investigation usually reveals the cure to be unsatisfactory for one reason or another. Do not be misled by ill-founded "scientific" news articles. Place confidence in your physician. He is the first to know about new medical discoveries. We are always among the first to stock new medications.
